PROJECT TITLE	AIRLINES DATA ANALYTICS FOR AVAITION INDUSTRY

Problem Statement (PS):	To provide better Airline and AirPort services and to avoid delays in Air Travel across different locations at Municipality level. The aim is to provide airports, airlines, and the travelling public with a neutral, third-party view of which airlines are delivering on their promise to get passengers from Point A to Point B on-time.
I am	A traveler
I'm trying to	travel across the world
But	There is no proper information about the airports
Because	The website is not responsive and doesn't have a mobile version

Which makes me feel	Frustrated
